2020 Higher Education for ASEAN Talents (HEAT): Scholarship Opportunity for ASEAN Faculty Members in the Republic of Korea

1 DESCRIPTION

Korean Council for University Education (KCUE) is launching a full scholarship opportunity for ASEAN faculty members: Higher Education for ASEAN Talents (HEAT).

Higher Education for ASEAN Talents (HEAT) is designed to provide higher education in Korea for ASEAN faculty members. The main purpose of this program is to invite faculty members from ASEAN higher education institutions to support their acquisition of a doctoral degree in Korea with the aim to enhance their expertise and promote people-to-people exchanges between Korea and ASEAN.

Participants will receive a Doctoral degree from a Korean university after completion of the program. KCUE will cover tuition, living expenses, and other costs. 30 scholarship recipients (faculty members) from 10 ASEAN Members States will be selected (3 persons per country), and one person will receive a full scholarship for three years.

HEAT is funded from ASEAN-ROK Cooperation Fund, and Korean Council for University Education (KCUE) is the implementing agency of the HEAT project. KCUE is a non-profit, non-governmental association of 4-year universities, representing the voice of member universities to increase autonomy and promote mutual cooperation between universities for the effective development of higher education in Korea.
