

哈爾濱工業大學  
HARBIN INSTITUTE OF TECHNOLOGY

CHINA DISCOVERY  
ONLINE INTERNATIONAL  
SUMMER SCHOOL

July 06<sup>th</sup> ~ July 31<sup>st</sup>, 2020

## Brief Introduction

Founded in 1920, Harbin Institute of Technology has developed into an open, multidisciplinary, research-oriented, leading national university with science and engineering as its core, encompassing management, liberal arts, economy and law as a whole. After nearly 100 years development, HIT has formed a pattern of “One University, Three Campuses (Harbin/Weihai/Shenzhen)”.

## About the Program

Aiming to provide international students with an accessible and high-quality platform to understand China, HIT invites excellent university staff, international experts, famous enterprise CEOs to offer a portfolio of English-medium courses that include the social sciences, Chinese culture, Chinese economy and business, interdisciplinary studies and many others. In addition to the intensive courses, we also offer you online activities, like paper cutting, Chinese cooking etc.

As the influence of COVID-19, China Discovery Program 2020 will be organized as an online program. We welcome you to join us!

## Program Highlights

## Online Courses

### - Understanding China

In this part, the basic concept of culture, communication and cross-cultural communication in the increasing internationalization of contemporary China will be introduced.

### - China's Economic Development under the Pandemic

During the pandemic, people's new cognition, habits and demands caused by "staying indoors" have promoted the rapid development of a number of new economic models. What is the development trend of China's economy? You will have a new understanding from our series courses.

### - Introduction to the Development of Science and Technology in China

China has made great progress in its Science and Technology, including aerospace, robotics, and bioengineering etc. Especially the technologies such as artificial intelligence and big data have been facing rapid rise during the pandemic. From series courses, students will acquire the updated knowledge of the development of science and technology in China.

### - Chinese Language and Online Activities

Besides regular Chinese language teaching, we also offer online Chinese cultural activities, including Ecological education, and manual courses etc.
