

Recruitment for UNESCO i-WSSM & KIGAM Summer Program on Groundwater Management and Natural Heritage

In coming summer, UNESCO i-WSSM and KIGAM will launch a **special program** for water-related professionals and international students who are currently residing in Korea.

If you are interested in groundwater, which is the most arising issue in the field of water-security, along with the natural heritages in Korea please join us and apply for the program! This program will provide you a fruitful water-management knowledge and unforgettable cultural experiences.

Program Theme	Groundwater Management and Natural Heritage		
Date	11-15(Mon. to Fri.) July 2022	Venue	Daejeon and Jeju
Participants	10 Participants	Fees*	Free**

* Includes tuition, accomodation and meals during the program

** As part of the global action to fight against COVID-19, the program is fully funded by UNESCO i-WSSM and KIGAM

Target

Any international students, officials, professionals from countries included in the <OECD DAC's List of ODA Recipients>, who are related to the water sector and currently enrolled in universities in Korea.
